Dear Jaco

**Re: UBUNTU AWARDS – MAPUNGUBWE NATIONAL PARK – 24 SEPTEMBER 2008**

The Ubuntu Awards 2008 has set a new benchmark for South Africa and received accolades from as far afield as Cuba and Africa, where it was broadcast by SABC International News.

Mapungubwe National Park, on the banks of the Limpopo River, overlooking Botswana, Zimbabwe must be the most arid, remote location, devoid of cell phone or radio contact in South Africa.

On my first site visit to Mapungubwe, I realised that the only way Litha Communications could deliver was with highly motivated professional partners.

I attach a photo for you to look at and always remember that your talent, tenacity and strength of character, not forgetting your brilliant sense of humour, resulted in a spectacular sight and sound experience in the middle of the wild.

This is more than we could ever ask from a supplier and we therefore will always regard you and your company as partners.

From the Litha Team, a heartfelt Thank You!

Yours sincerely

**Beulah du Toit**
